

# medisun<sup>®</sup> 250

SEVERAL PARTIAL BODY TREATMENTS FOR USE AT HOME  
AND IN MEDICAL PRACTICES

# medisun® 250

## SEVERAL PARTIAL BODY TREATMENTS

The compact partial body system **medisun® 250** permits universal use and a great number of treatment options. The mobile swivelling stand permits very comfortable treatments while lying, standing or sitting. The exposure

time is set through an integrated electronic timer via the dosage table. The large exposure field of 60 x 40 cm makes treatment easy for well-accessible skin areas, as well as the feet and hands, or even the scalp.

## SPECIAL FEATURES:

- Variable lamp equipment for different treatments
- Treatment while standing, lying and sitting
- Short exposure times due to high-performance lamps
- Electronic time control with dosage-time table
- Gas spring for smooth height adjustment
- Space-saving mobile stand
- Time limitation and safety shutdown
- User-friendly operation
- Ergonomic design
- Acrylic protection panels to avoid touching the lamps
- Automatic deactivation at the end of the exposure time
- Simple cleaning
